W-01212A-09-0082

H2O, both base & effluent, along with sewer rate hike requests made by **Global Water** to the **ACC**, ranging 40% to 500%, must be researched and justified before the **State of AZ** grants automatic approval or eventual, downward, adjusted rates of agreement. As a privately held firm, **Global Water & Subsidiaries** have only campaigned and marketed and paid (in filings) for these substantial increases, but they have not proven just operating cause.
